Charging the power bank:

- **Note:** always fully charge the power bank before first use. This unit requires 3 to 4 full drains and recharges before working to its optimum performance.
- When not used over long periods always recharge the unit every 3 months.
- To charge the unit, first insert the USB-A plug end of the charging lead into a USB port on either a PC, laptop or a certified USB power supply.
- Next insert the micro USB plug end of the charging lead into the micro USB charging port on the power bank.
- The LED light/button on the power bank will glow red to indicate charging is taking place, then go out when the power bank is fully charged.
- To use the LED torch function at anytime press and hold the LED light/button.

Connecting the power bank to your device:

- **Note:** always check the voltage compatibility of your device before connecting to the power bank.
- Insert the device's regular USB charging lead into the USB port on the power bank.

- Connect the device to the other end of the lead and check the display on the device to ensure charging is taking place. The LED light/button on the power bank will also illuminate blue when a device is connected and drawing power.
- When charging is complete always disconnect your device and the charging lead from the power bank.
- This unit can be used to charge all Android and iOS devices when using the recommended charging lead supplied with the device.

In the Box:

- 1pc Power bank
- 1pc USB charging lead
- User Guide

Safety warnings:

- Improper use may result in product damage, decreased battery life and loss of charging capacity not covered by the manufacturer's warranty.
- Always check the device voltage for compatibility before use.
- Only charge the unit from a PC, laptop or certified USB power supply.
- Do not store the power bank in high or low temperature environments or enclosed areas without ventilation.
- Never drop, throw or subject the unit to excessive force as this may damage its internal components.
- If the unit becomes excessively hot, emits an odour, occurs body damage or becomes deformed in any way stop using it immediately.
- Never use any harsh chemicals or cleaning agents on the exterior of the unit.
